Enough already. The non agreeing states case must be dismissed so that we can go on with the rebuilding of the economy of New York and the Country. The issue is greed and how the government can try to ruin the greatest sucess story in the history of mankind. By delaying the settlement of the contribution of massive computer help to the schools that need help the most, we delay the help to another year of students.

I hope that we can count on the Federal Government to do the right thing and end this mess.
